What Does The Red Cross Mean to You?

What does the American Red Cross mean to you?

An Act of Congress provided its charter, January 5, 1905, and its duties are imposed by Presidential order to carry out purposes of the Treaty of Geneva (1864) and other broadly defined services.

In peace-time, the public benefits from the Red Cross program to improve health, prevent disease, mitigate suffering.

In war-time, the Red Cross resumes the role which led to its founding: to furnish aid to sick and wounded of the armies, to relieve suffering of civilian injured and those driven from homes or rendered destitute by military operations.

Every donor to Red Cross membership, every volunteer worker in its multiple services, every housewife who sews a stitch, knits, or rolls surgical dressings in the Red Cross production program, is serving America in her gigantic war effort.

In peace-time, services of the American Red Cross are sufficiently important, varied and extensive, to demand voluntary participation of the ablest men and women in the community; in war-time, its needs must attract increasing numbers of volunteers.

Since 1939, the American Red Cross has operated locally through a county-wide set-up, the Jones Co. Red Cross Chapter, whose first chairman was the late Rudolph Swenson of Stamford. The present chairman is O. A. Dean of Anson, and there are a vice-chairman and committee members in each town of the county who can assist volunteers to find a type of activity suited to their abilities.

Dr. and Mrs. Frank Johnson of Rotan were here Sunday to visit their parents, Mr. and Mrs. W. F. Johnson, Mr. and Mrs. M. P. May and other relatives.

This Message Urgent To All Car Owners

Washington, Oct. 2—Rubber Director William M. Jeffers today asked all American newspapers, daily and weekly, to carry a special message on rubber conservation for their readers as frequently as possible during the period from Oct. 5 until the institution of nationwide gas rationing.

He urged each newspaper to stress five points in special, one or two column boxes, or other type of special display.

The suggested text for the box as follows:

A MESSAGE TO EVERY DRIVER

You can save rubber and help win the war if you will do these things:

1. Drive only when absolutely necessary.
2. Keep under 35 miles an hour.
3. Keep your tires properly inflated.
4. Have them inspected regularly.
5. Share your car with others.

William M. Jeffers
Rubber Director

In making this appeal to American newspapers, Mr. Jeffers said:

"We must start saving rubber now. A voluntary campaign must be started to save precious rubber until nation-wide rationing can be effected.

"The newspapers constitute one of our most direct and effective channels to the American public.

"Therefore, I am asking all newspapers, weekly and daily, to put before their readers at once the urgent need for saving rubber.

"This message will be most effective, I believe, if newspapers will display it in special one-column or two-column boxes placed where all readers can see it, and carried in the papers frequently, every day if possible.

"I would like to write a personal letter to every editor asking for this favor. As time will not permit this, I ask each editor to consider this message as a personal appeal from me."

School Children to Fight The Japs With Scrap

A HUNDRED YEARS from now, future generations will look back to the time of 1942 and speak with pride that the people of Hamlin, then mere children, thought enough of this great freedom-loving nation of ours to gather scrap metals to fight their enemies with.

That is exactly what Hamlin's school children are doing this very Friday. Don't tell them you have nothing to contribute. About your home and mine are articles of waste that need to go into smelters and

finally be fashioned into bombs and ships and guns and bullets for our boys who just a few months ago were High school fellows on our streets. Don't let 'em down. Dig out some more scrap and let's get it ready to blow the Japs and Germans to smithereens. The Kiddoes will dismiss school a part of this Friday and then we'll tell you next week about that pile of iron. And say, all iron is now being given and the place to deposit it is on the lots between the Hamlin Motor Company and May Furniture Store.

About Tires, Retreads New Rulings, Etc.

The Jones County Rationing Board sends over the following:

(Amendment 28 to Revised Tire Rationing Regulations)

(2) That the tire for which application is made is to replace a tire which is not capable of being recapped either because of its physical condition or the lack of adequate recapping facilities, or which cannot be recapped for safe use at the speeds at which the applicant may reasonably be expected to operate or which is to be mounted on an unused or rebuilt vehicle which the applicant has purchased or contracted to purchase for his intended use. If the carcass can be recapped and adequate recapping facilities are available, a certificate may be granted only for recapping services.

(1) A Board shall not issue a certificate for a tire to an applicant who seeks to replace a tire carcass which cannot be recapped because of its physical condition, unless the applicant can establish to the satisfaction of the Board that the carcass which he seeks to replace became unusable from circumstances not resulting from the applicant's abuse or neglect. Granting or denial of a certificate under these conditions will be at the discretion of the Board with regard to the loss which the community would suffer if the applicant is denied tires. Where the community would suffer no loss if the applicant were denied tires, because other persons can perform the same service, or for other reasons, the Board may refuse to grant tires to replace such damaged tires.

Effective date, Oct. 2, 1942.

Pied Pipers Tie Game With Team at Spur

Last week the Hamlin High school foot ball team went to Spur for a non-conference contest.

Although the game was a scoreless tie, the Pipers threatened to score on three or four occasions. The Spur team put up a good battle and although they gained more yds. from rushing, they never came near the goal line the Hamlin boys were defending.

This week the Pipers go to play Throckmorton in a conference game.

Next week the Pipers tackle the Stamford boys at Stamford.

What Jones County Is Doing For Red Cross

A production record of over 850 items completed since August 21st, was shipped by the Jones County Chapter of American Red Cross October 3, Mrs. Wade Youngblood, packing chairman, announces.

Included in the shipment were knitted articles for the armed forces, hospital bed shirts, rompers, boys' shirts, and other garments.

A new quota of rush army and navy knitting is due. Mrs. E. A. Russell and Mrs. J. C. Bryant of Stamford are chairman and co-chairman of knitting.

Present production work is mainly on hospital operating gowns and on soldiers' kits. One hundred fifty kits, and 150 sewing kits to be included in these, must be completed by the third week of October. Volunteers are urged to come to the Stamford production room. Learn how to make these articles, and then take such work to your homes for finishing.

Surgical dressings institutes are under way in Stamford this week, to be concluded Saturday. General meeting held Thursday of last week attracted 110 Jones county women. Dr. E. P. Bunkley of Stamford Sanitarium staff addressed the group on "Importance of Care in Preparing Surgical Dressings."

Attending from Hamlin were Mrs. C. F. Butcher, Hamlin Red Cross vice-chairman; Mrs. John Ed Day, Mrs. R. D. Moore, Mrs. P. D. Harkins; from Hawley, Mrs. J. E. Albright and Mrs. A. J. Jones.

In Senate Race

CHARLIE A. JONES

To the Voters of Hamlin, Jones County, and the 24th Senatorial District:

In the recent 117th Representative District run-off election, I led in 30 boxes and tied in 5 out of the 48 in the district. This almost placed me in the lower House of the Texas Legislature. Now that there is a vacancy in the upper House, I am asking you to elect me to that place. I am well aware that increased opportunity, means greater responsibility. I feel that most all of you know me, and I am glad that you do. You that know me, know I will make you the very best Senator possible.

I will speak over KRBC, Abilene, October 12th, 26th and November 2nd. Also over KXOX, Sweetwater, October 22nd and 29th. These talks will all be given from 1:15 to 1:30 P. M. in the afternoon.

Friends, I solicit your vote and influence. Please check these speaking dates and tell your friends.

Where Are Those Junk Cars?

If you own an old automobile that for any reason has ceased to be transportation, our soldiers in Australia, in England, and on the deserts of North Africa want it. No! They don't want old jalopies for joy riding, but they need tanks and guns, and these can't be made without scrap metal.

The War Production Board wants a record of every old car in Texas that is no longer serving a useful purpose. If you have one yourself or know where one is located, fill in the following form, mail it to this newspaper, and a WPB inspector soon will contact the owner and get the car headed for a junk yard.

What Would You Say This Week?

If you were a country editor this week, you would be conscious of the fact that your readers expected something personal, or editorially from you on the situation of the world as of today, and what would you say?

Let us break up our remarks on several subjects to save time.

The Germans and Japs have done three things to us that none of us like. They have made us get up earlier, slowed down our speed and cut out a lot of our talking. It is like taking medicine, we hate to do it, but maybe it is good for us. We have had so much ease, luxury, independence that we became cocky. We went so fast, so far and remained so long till now it hurts. We talked too much and did too little till the day of danger was at our doors, and now we will profit by talking less and acting sooner and faster.

The law of Local Sentiment, is after all, the strongest law in America. Much of our troubles of this day have been caused by the laxity of local sentiment. Recently, especially before Pearl Harbor, there was no special national sentiment against anything or anybody. "You just do and say what you please, just so you keep off my toes" seemed to sway everybody. It was this kind of soil in which Hitlerism grew best in every land and only by the skin of our teeth did this country wake up quick enough to keep out of the way of Hitler's booted brutes.

There is no law that tells you what will happen to you when you recklessly EXCEED 35 miles per hour, but Buddy, there is growing a deep sentiment that will put the finish on you when you carelessly, or purposefully refuse to do what our leaders think is best to

win a terrible war. Observing what should be done in WAR times, is very much like one's religion. Try playing the "goody" game while some preacher, or Old Deac, or Mrs. Devouty is looking or listening, and then cutting away when off in some secluded corner where only you and your God are in company. God can know and see your every thoughts, but poor Uncle Sam may not have a spotter away down on that highway where you know there's no one in front or behind who might turn you in.

It is thin patriotism to play it for show. So public sentiment and an aroused conscience will play a part from here out. If some guy dashes by you at the old rate of 60 or 70, your righteous blood will boil till you wish you had a gun to shoot the air out of that fellow's precious tires. Yes, sir, we are for the slower speed, which will mean less gas, more comfort and safety and less work for the undertaker.

Mrs. Freida Schoemann returned Thursday of last week from New York where she had been visiting her son and family and other relatives.

The Glider Went Up, Not Down

Lubbock, Oct. 5—Pvt. William Hurley, 20 year old Washington D. C. glider student at South Plains Army Flying School, went up in a sailplane for a little early morning soaring.

He cut loose from the tow plane at 3,000 feet and began circling to lose altitude so he could come in for a landing.

Next time he looked at his altimeter, he was at 4,000 feet, the next time 5,000, and the next time, 5,500 feet.

At 7,000 feet, Private Hurley bailed out.

A short time later the glider got loose from the updraft and came down, too.

It Is Your Money

If You Pay More Than Our Safe Rates for your protection, you let some one spend the money that belongs to your family.

You Would Not pay \$1.50 for flour that you can buy for \$1.00, yet many are doing that for insurance. A comparison of rates we charge for protection will show you.

Can The Person who sells you at a higher price, and knows it, feel he is treating you, as he would wish to be treated?

In Merchandise, there is a difference in quality. In Che Cash Value of Insurance, there is none. Money from one, is of no greater value than from another. Then Why Pay a higher rate for your insurance money? It is just simple business. You always compare prices when buying food or clothing, so why not try that in your insurance program? It will pay you. There are but two things to consider in buying insurance. That is, "Do they pay promptly? Do they pay what they promise?" Our reputation is established. We are proud of what people know. Our Large Cash Reserve, is Your Guaranty. Our Rates are your savings.

Write us and give us your ages, and let us show you the savings, and your own good judgment will decide your actions.

Very truly yours,

Dear Sir:

I have just got to have that Hamlin Herald to see what everyone in Hamlin and vicinity is doing.

As you probably know, I first came to the sunny south, Florida, to be exact, with the Mott-Smith Corporation prospecting for oil.

After working all over Florida and Georgia for eight months, I finally decided to enlist in the army.

I am now in the Signal Corps Reserve, Radio Division. After 12 months of study I will go into the Regular Army and there take training in Reserve Officers School, from which I shall emerge a 2nd Lieut. in Uncle Sam's Army.

Now let me get back where I started from. Enclosed you will find 50c for which please send me the Herald until the subscription time runs out.

I am still backing the Pied Pipers all the way and hope to keep up with their games through the Herald. Here's wishing them a successful season.

Sincerely yours,
John T. Durham

Sailor boys, Delmer and Beuford Winters, G. W. Nichols and Guy Elkins, all from the Great Lakes Station, are making Hamlin look like a sea port this week, while here on a 9 days leave. (Perhaps there are other boys in on furlough or leaves and if anyone is left out we did not learn about them).

Not everybody with a dollar to spare can shoot a gun straight—but everybody can shoot straight to the bank and buy War Bonds. Buy your 10% every pay day.

About Soldiers--Sailors

The Herald is trying to get something about our boys and girls in the armed service each week. We must depend on relatives, and even the "service folks" as well to furnish what-is-what. Rest assured we shall not violate any secrets of any sort. Tell us about that boy, and maybe a WAAC or a WAVE or maybe a nurse. So many are going out these days that it is impossible to get all their names.

— S & S —

Now last week we failed to say that J. E. (Runt) McCoy was headed for Camp Wolters. Well, he did. Now this week some of the boys are back in Hamlin on short furloughs, for example John May, John looks like a Captain or Major or something in that service uniform.

— S & S —

HAMLIN'S WAAC

Let all of us begin to use the word, Lieutenant Carolyn F. Greenway, who writes from Ft. Des Moines Iowa, that her address is now Lt. Carolyn F. Greenway, 7th Officers Co.

As far as the Herald knows this is the only Jones County girl in the WAAC organization. Lt. Carolyn Greenway is a daughter of Mr. and Mrs. Roscoe Greenway, and the fact that she is a "mere girl" does not mean that she is not going places. If she were a young man, you'd hear folks say, watch out for that young Lt., he will get his German-Jap. But here's a tip, better watch out, for this young lady is in there for business, and already the Herald has a tip that she stood at top ranking position and was accorded special position in the receiving line when she got her commission.

Say, you fellows from Hamlin, we want to surprise Carolyn by sending her a card or letter. Just call her "Our Sweetheart from Hamlin", and if your courtmarshal you for thus addressing an officer, let ye Editor hear about it and we will cut in on them with our "prerogative". We mean it. Write the lady Lieut.

Pvt. M. Y. Wilson who is in the army air service and has been taking training in the Kansas City, Mo.,

Mechanical School the past eight or nine months has been awarded a diploma in Airplane Engine Service. He is being transferred to Detroit to take more study in airplane engines, perhaps the Packard. It is about time M. Y. is writing the Herald and give us some inside stuff—not military secrets.

Aviation Cadet Robert Fowler of Shepherd Field, has been transferred to Kelley Field, San Antonio, for training.

— S & S —

Pvt. Oneal Tindal, from Ft. Travis, near Galveston, returned Sunday after a ten days furlough to attend the funeral of his step-father, Charlie Pyron.

Today, October 9, is Wings for Lieutenant William Warren Nobles, son of Mrs. Vera Nobles of Hamlin. Warren is in the class of 310 who win their silver wings of the Army Air Forces, at San Antonio. He completed his training at Kelley Field today. This young chap is a Pied Piper of Hamlin High and a graduate of Texas Tech who is out to put the fixin's on old Hitler and Hiro. Congratulations, Warren.

— S & S —

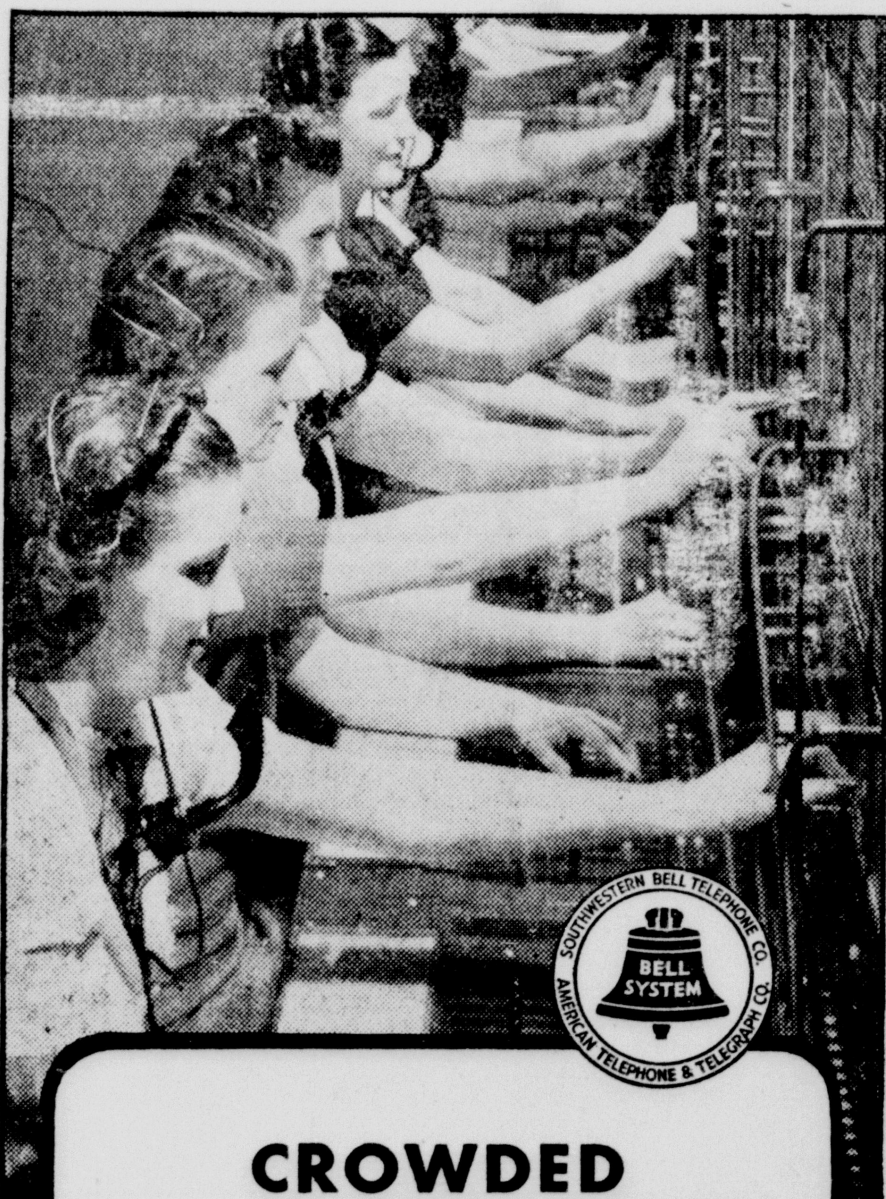

Hamlin folks were glad to see Pat Marlow, Homer Raney, Lester Jenkins, Elmo Gabriel and Pinky Fitzgerald back on our streets this week in soldier uniform. All of these are assigned to the Lubbock Ground Air Base for their "processing" and while this near will be coming back often. Pvt. Fitzgerald will remain here 10 days to help the Oil Mill get things going slick. The others are going back this Friday.

— S & S —

Sailorboy J. Wendell Harrison came in from San Diego Naval Station on Friday of last week to spend a leave of absence with his wife who is better known in Hamlin as Frances Eddie Beck. Mr. Harrison is an officer.

— S & S —

Staff Sgt. Bill Abbott came up from Camp Bowie last Thursday for a week's furlough with his mother, Mrs. Walter B. Abbott.

CROWDED WITH THE CALLS OF WAR

It's true we usually can put through quickly your long distance telephone calls to towns near-by. But when you send your voice to far cities, it may travel on lines jammed to the limit with calls that help move troops, make planes, build tanks.

We can't put up more lines, because most of the metal has gone to war. So please help us in a vital job. Make as few calls as possible to war centers or cities far away, and please plan to keep such calls short. It will help clear the way for the calls of war.

WAR BOND QUOTAS
FOR AUGUST

WASHINGTON, D. C., Aug. 10.—Henry Morgenthau, Jr., Secretary of the Treasury, today announced the August War Bond Quotas for the 3,070 counties in the nation totalling \$315,000,000.

The August quota for the State of Texas is \$27,250,000. In arriving at the county quotas for August the Treasury Department took into consideration major factors affecting incomes which in turn cause significant variations in sales during the twelve-month period.

Hereafter actual Bond sales in the various states will be compared with quotas on a cumulative basis. The amount by which sales fall short of or exceed quotas in any month will be added to or subtracted from quotas for future months.

TOOL USERS AND
TOOL OWNERS

In a recent advertisement signed by a well-known business concern, this statement appeared: "My boss has 14 Grand tied up in me."

What that slangy use of words meant was that the average employee in industry represents a capital investment—in property, plant, machinery and equipment—of \$14,000. In other words, labor has jobs only when some business man, or group of investors, puts up the money necessary for the creation of jobs.

It was well said recently, by a student of economics, that men in governmental authority too often forget that while the rights of workers are being considered, the owner of the tools used by workers must also have some consideration.

After this war is over, the plants now devoted to military needs must be re-converted to peace-time activity; must be re-tooled for the kind of production they were engaged in when it became necessary to tool up for war. Labor will expect peace-time jobs then, but somebody must provide the money for re-converting and re-tooling. That money cannot be forthcoming unless enough profits or capital can be stored up to meet such requirements.

The First Job

Americans are impatient people, says the Farm Journal. Impatience never won a war. Soundly planned action, backed by enough power, wins victories. The job now is not to remake America, but to save it.

May Not Need Gas Rationing, After All

The American people seem to have fallen right into line so generally in cutting down their automobile rate of travel that it is beginning to be rumored that Rationing of Gas will not be so necessary.

After all, rationing was for the purpose of saving rubber, and excepting in the eastern part of the United States, gas is plentiful. Down here in Texas we have more gas and oil than we know what to do with. We also have MILES to travel if we go places too. So to travel slowly, and get there safely, is a mighty good improvement.

One fellow, well known in Hamlin, the man who operates Texas' largest Hatchery, made a trip to Dallas the other day. This man, Curtis Martin, says that in the good old days he usually made 60 to 70 miles, but by now he has governors on his cars and trucks and slips along at not over 35 miles. So the other day, instead of stopping and re-gassing before reaching Dallas, he reports that he had plenty of gas when he got there and could have gone a long way farther. Folks, this is something worth reporting. You see, the Hatchery man saved gas and tires too. Really more tires than gas.

Rubber is the thing that we had and did not realize where it was coming from till the Japs showed us.

Bet a dollar those slant-eyed yellow devils get plenty of grins out of our hard luck. So it has been proved that we were not only pulled along by gas, but were floating on some precious black stuff from the lands down under.

With a little common sense in travel, in the rate, in the loads, maybe when all of the nation gets on the RIM, we will be making synthetic rubber enough to finish off the Japs and get rolling again.

The Cotton Crop
Is Coming Fast

This week has been the second finest cotton gathering week of the season. Already gins are showing they have passed the peak of the rush, however they are mighty busy and will wind up the year with the minimum of loss from wet weather.

Farmers are enjoying better labor conditions than was at first contemplated. The Mexican laborers came and in such groups that from twenty to fifty bales were gathered per week and as the cream of the crop is passed they move on to whiter fields. Their places are held then by colored help from deep in Texas. The native population of colored folks is enjoying the best season in

a long time. Pulling cotton at one dollar per hundred gives them a chance to make plenty of dollars per day. Some of these folks are taking care of their money for the uncertain days ahead.

Why your own car's Zero Hour comes at 00 miles an hour

ON THE OFFENSIVE you've got to be on the instant. Eager fighters, frisky jeeps, and all that's going along, must get going together—exactly at Zero Hour. But on the home front these brisk mornings, will your own precious car and its engine lubrication get going together—without deadly oiling delay? You can be sure as shootin', with your engine OIL-PLATED for Winter by Conoco Nth motor oil... oil that OIL-PLATES!

Even while the speedometer snoozes at 00 miles an hour—and you're still snug in your "kivers"—the chilly insides of your OIL-PLATED engine will already be coated by lubricant. Protective OIL-PLATING is really sort of "magnetized" to piston rings, bearings, and straight up the cylinders, by Conoco Nth oil's strong "power of attraction"—created by an added modern synthetic. This keeps the OIL-PLATING from all draining down to the crankcase overnight—over week-ends—and longer.

No complete lack of lubrication then, at 00 miles an hour—starting up cold. No long needless risk till cold oil comes inching along through passages as slim as spaghetti.

You're off safely, because OIL-PLATING safely stays on—ready to lubricate before any oil can circulate.

This season don't merely change oil. It's fully as simple and inexpensive to change to an OIL-PLATED engine. Just change to patented Conoco Nth oil at Your Mileage Merchant's Conoco station. Continental Oil Co.

"Pedal, Gwendolyn!
This bike isn't
like your
sewing
machine"

"Why, Edgar! You said let's make two tires do the work of four."

"Yeh, but I'm doing *all* the work. There ain't no 'lectric switch on this thing. You have to pedal it!"

"Oh, well, Edgar. You don't mind giving me a free ride, do you?"

"Listen, baby. You don't get any free rides any more!"

"Oh yeah? Well, I'm getting a free ride on that sewing machine!"

"U-u-m-m-ph! Just because it's electric, and you don't have to pedal it, don't think it's FREE. You have to pay for the juice!"

"Sure, Edgar. But we're using two or three times as much now as we used to—for the same money. That's what I call a free ride!"

★ ★

D'ja ever win an argument with your wife, Edgar? You may persuade her to help pedal the bike. But she's right about the cost of electric service.

It's a fact that West Texas homes today are getting two or three times as much electricity for the same money as they did 10 or 15 years ago. Actually, the electric bill of two-thirds of them is a dime a day—or less!

Not a free ride... but FREEDOM of enterprise makes this big bargain possible under the American system wherein men are free to plan and create a business that builds and serves.

"Save rubber today—or tomorrow you may walk!"

POT SHOTS FROM McCAULEY

—BY GEO. DARDEN—

Private W. B. Hendon of Camp Bowie is home with his mother, Mrs. Lee Hendon. W. B. has an eight days leave, the first one he has had since he joined up with Uncle Sam's army.

James Fancher and wife of Washington D. C. are visiting parents here for a week. James is on his way to Philadelphia to ship out on the high seas. He has been in the Navy for the past seven years and has been stationed in Washington D. C. Mrs. Fancher plans to stay with his parents in McCaulley.

Visiting in the J. H. Milsap and Louis Hopkins homes last week were Mmes: Fred Roderick, J. W. James, Floyd Lofton all of Pecan Gap, and Miss Ruby Milsap of Omaha, Nebr.

Mrs. Amuel Rector and baby of Wichita Falls visited in the home of her parents, Mr. and Mrs. Hub Parker last week.

Tillman Henson, son of Mr. and Mrs. James Henson, has returned from Amarillo where he has been employed on a defense job.

Mrs. John Reynolds and daughter are in Washington D. C. with Lieut. John Reynolds. Mrs. Reynolds writes her parents, Mr. and Mrs. W. C. Lee, that she is really enjoying the visits in the Nation's Capital.

Louis Hopkins left for a training base in Norfolk, Va., a few days ago. Mrs. Hopkins accompanied him as far as Dallas.

The first meeting of the P-T A was held at the school house last Thursday afternoon. Mrs. Ralph Bishop read an interesting paper on building for tomorrow by Governor Coke Stevenson. About twenty-five members were present.

Mr. and Mrs. O. C. Prather and Mrs. George Maberry made a shopping trip to Abilene last Saturday.

L. A. Long and Geo. Wolf, oil operators with holdings in this vicinity, were in McCaulley on business last week.

J. P. Humphries has purchased "Lucky Day", a fine five gaited stallion from C. A. McGaughey, manager of Sears-Roebuck at Abilene. Mr. Humphries tells us that Lucky Day is one of the highest

class saddle type horses in this part of Texas.

The address of William E. Shira is U. S. M. C. Plt. 875 R. D. M. C. B., San Diego, Calif.

Mrs. Ceryl Brown (former Doris May Griffin) left Thursday a week ago for Ohio to join her husband who is in the Coast Guard. Mrs. Brown plans to return home in the near future.

The war news is better at this writing. The boys are driving the Japs back in New Guinea and in the Solomons, and Stalin issued a statement to the press whereby he expects the allied nations to get busy and start a second front so we look for things to start popping in a big way in the near future, so drop us a card and tell us the address of your boy in service and we say thanks to the ones who have written us this week giving the addresses of the boys from this vicinity and until next week at this time we will be on the gin lot.

We have had a lot of things on our chest for a long time about hometown trading and we might as well get them off before we really explode.

First we ask these questions: If you want an accommodation where do you go for it? McCaulley, or is it Abilene or some other town? If your house burns down who makes up money and helps rebuild your house? Is it home folks that help you or is it the folks where you gin your cotton and buy your groceries? If you have sickness is it the home town folks that sit up with you and share your sorrows, or is it the folks in other towns where you buy your groceries and gin your cotton? If some of the folks get in a jam with the law, who do you ask to go your bond, is it your home town folks, or is it that other town where you buy your groceries, gasoline, and get your cotton ginned? If you want a birth certificate, gas exemption refund papers or your questionnaire filled out, do you ask your home town man to help you or do you go to some other town where you have bought your needs and ginned your cotton?

The fellow that always expects favors and never returns them isn't much of a friend in the first place, and the fellow that runs all over the country looking for bargains, does not get along any better than the fellow that stays with his friends, and the "rumor spreader" that goes off from home and knocks his home town should not get any consideration when he comes back looking for favors, and from now on we just imagine the fellow that stays with friends will be the fellow that gets the sugar if there is any. There is an old true saying: "You scratch my back, and I'll scratch yours".
